(54) MOBILE PHONE

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a mobile phone that allows a user to easily recognize that a specific day 図1 comes when the specific day such as a birthday registered in advance by a user of the mobile phone comes.

SOLUTION: The mobile phone is provided with an EEPROM 4 that registers a name of the specific day and a specific incoming tone corresponding to the specific day, an operation section 6 that registers the specific day, a speaker 7 that sounds the specific incoming tone when a phone call arrives at the specific day, a display section 5 that displays the name of the specific day on its screen when the specific day comes, and a control section 2 or the like that conducts entire processing control.
